### REASONS FOR ALLOWANCE

The following is a statement of reasons for the indication of allowable subject matter:

Applicant's amendments to the claims to encompass a composition comprising synergistic effect amounts of the claimed active agents and a method of reducing the HbA1c levels of a patient places the claims in condition for allowance. The subsequent reference to the WO 00/57729 patent establishes applicants' invention to be synergistic.

The examples are illustrative of the claimed synergistic effect to lower the glucose by at least 10%. This unexpected and surprising limitation was not taught or suggested in the prior art and establishes a synergistic activity.
